

Digi Binder

System Solutions for Photo Album & Book Binding

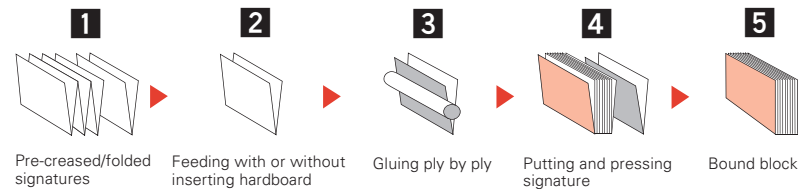

DB-440

CE
ISO 9001

Digi Binder DB-440 is photo book block gluing binder and new generation of binder for digital P.O.D. photo books and conventional photo album.

Binding Process

Digi Binder DB-440 is the world's best binder which is compatible with all types of digital press, photographic printers and POD (print on demand) systems. DB-440 has the dual feeding system making stable feeding of thin signatures and thick cardboard independently. DB-440 can make larger photo books and albums up to 14" x 15" with or without stiff pages by inserting hardboard between the signatures.

Specifications

Binding size (L x W)	Max. 355 x 380 mm	Glue supply	Automatic pump supply with stop sensor
	Min. 165 x 165 mm	Operation display	7" Full color touch screen
Signature thickness	Print - 120~ 400gsm	Signature feeder	Automatic dual feeder
	Cardboard - 350~1500gsm	Power supply	200~240/380~415VAC 50/60Hz 3phase
Operation binding speed	Max. 60 signatures/min	Power consumption	3.5KW 17.5A
Type of glue	Water-based glue	Dimension (L x W x H)	1000 x 983 x 1805 mm
Gluing system	Roller gluing system	Weight (net/gross)	700kgs/about 900kgs
