

Digi Multi Coater 25

Duplex Coating !!!

UV/Water-based Varnish Coater for KONICA MINOLTA AccurioJet KM-1

Konica Minolta AccurioJet KM-1

Digi Multi Coater 25 is Coater which is three in one system for UV and Water-based Varnish Coating after printing.

Digi Multi Coater 25 is especially designed for KONICA MINOLTA Digital Press AccurioJet KM-1. It is also compatible with most offset, digital press, ink jet and photo based prints. The design of Digi Multi Coater 25 allows for simple and automatic operation from start to finish and can do the duplex coating process in one pass by independent two coating units. The duplex coating makes it possible to improve the efficiency of coating process. Digi Multi Coater 25 working with KONICA MINOLTA AccurioJet KM-1 is the most effective system for UV and water-based liquid coating after printing.

Specification

Coating Technology: Sheet Fed Flood Coating for UV/Water-based Varnish with UV pre-heating technology	Paper Thickness: 90gsm - 450gsm	Power Supply: 200V~415V, 50/60Hz Three Phase
IR Heater & UV Cure System	Coating Speed : Max. 30 meter/min. for UV Coating	Power Consumption: 48 KW
Duplex Coating	Max. 30 meter/min. for Water-based Varnish Coating	Dimensions: L 4.90m x W 1.25m x H 1.81m
Coating Thickness: 6~14 Microns	*Speed is variable depending on the paper thickness, media and/or varnish	Weight: Approx. 4200kg
Coating Paper Size: Max. 585mm x 750mm (KONICA MINOLTA AccurioJet KM-1 : 585mm x 750mm)	Feeder stacking height: 850mm	(Coater unit + Stacker/Feeder unit)
Coating Width: Max. 585mm	Stacker stacking height: 850mm	

*The specification may be changed without notice.
