

Duplex Coating

Digi Multi Coater/Duplex/H24

UV/ Water-based Varnish & Primer Coater
for HP Indigo 30000/12000 Digital Press

HP Indigo 30000

HP Indigo 12000

Digi Multi Coater/Duplex/H24 is Coater which is three in one system for Primer Coating as pre-processing before printing and UV/Water-based Varnish Coating after printing.

Digi Multi Coater/Duplex/H24 is especially designed for HP Indigo 30000/12000 Digital Press and compatible with most offset, digital press, ink jet and photo based prints. The design of Digi Multi Coater allows for simple and automatic operation from start to finish and can do the duplex coating process in once by independent two coating units. The duplex coating makes it possible to improve the efficiency of coating process and productivity much higher. Digi Multi Coater/Duplex/H24 working with HP Indigo 30000/12000 Digital Press is the most effective system for primer coating before printing and UV, water-based liquid coating

Specification

Coating Technology:	Sheet Fed Flood Coating for UV / Water-based Varnish & Primer IR Heater & UV Cure System	Paper Thickness:	70 - 600gsm (uncoated) 90 - 600gsm (coated)	Power Supply:	200V~415V, 50/60Hz Three Phase
	Duplex Coating		*Paper thickness may not be applicable subject to the media material.	Power Consumption:	38 KW
Coating Thickness:	6~14 Microns	Coating Speed:	Max. 2,400 sheets / hour for UV Coating Max. 2,400 sheets / hour for Primer Coating	Dimensions:	L4.40m x W1.15m x H1.75m
Coating Paper Size:	Max. 545mm x 788mm (HP Indigo 30000/12000 : 530mm x 750mm)		*Speed is variable depending on the paper (type, thickness), environment (temperature, humidity), and/or coating type (varnish or primer coating).	Weight:	Approx. 3720kg
Coating Width:	Max. 580mm	Feeder stacking height:	850mm		
		Stacker stacking height:	850mm		

*The specification may be changed without notice.
