

Digi Multi Coater

**B2 UV/ Water-based Varnish Coater
for Digital Print Press**

Fuji film Jet Press 720S

Digi Multi Coater is Coater which is two in one system for B2 size UV/ Water-based Varnish Coating after printing.

Digi Multi Coater is especially designed for B2 size Fuji film Jet Press 720S / Digital Print Press and compatible with most offset, digital press, ink jet and photo based prints. The design of Digi Multi Coater allows for simple and automatic operation from start to finish. The coating system makes it possible to improve the efficiency of coating process. Digi Multi Coater working with Digital Print Press is the most effective system for UV, water-based liquid coating after printing.

Specification

Coating Technology:	Sheet Fed Flood Coating for UV / Water-based Varnish	Paper Thickness:	70 - 400gsm (uncoated paper)	Power Supply:	200V~415V, 50/60Hz Three Phase
	IR Heater and UV Cure System		90 - 400gsm (coated paper)	Power Consumption:	38 KW
	Pre-Heating+Simplex Coating or Duplex Coating	Coating Speed:	Max. 30 meter/min. for UV Coating	Dimensions:	L4.40m x W1.15m x H1.75m
Coating Thickness:	6~14 Microns		Max. 30 meter/min. for Water-based Varnish Coating	Weight: Coater unit +	
Coating Paper Size:	Max. 545mm x 788mm	*Speed is variable depending on the paper thickness, media and/or varnish.		Stacker/Feeder unit:	Approx. 3720kg
	(Fuji film Jet Press 720S: 530mm x 750mm)				
Coating Width:	Max. 580mm	Feeder stacking height:	850mm		
		Stacker stacking height:	850mm		

*The specification may be changed without notice.
