**Bourg Book Loader
(BBL)**

ACCESSORIES

C.P Bourg offers a large range of accessories designed to increase your productivity, efficiency and profits.

BOURG BOOK LOADER

OFF-LINE

Overview

The Bourg Book Loader is an accessory upgrade for the BB3002 perfect binder. It allows the operator to load up to 120 book blocks in less than 6 minutes, load corresponding covers into the cover feeder, and set job parameters. The system can be left unattended for up to 25 minutes of non-stop production while the operator focuses on other tasks.

BB3002 users have the most to gain: more operator flexibility, increased production speed resulting in a quick return on investment.

- 1 Pre-loading trays allow the binder to run autonomously and provides the operator 8-25 minutes of free time to perform other tasks
- 2 Binder works at constant maximum speed of up to 650 cycles/hour
- 3 120 pallets/separators adjustable to accommodate books of varying thickness
- 4 Fast loading of a wide range of book thickness from 1 to 60 mm (0.04 – 2.36 in)
- 5 Automatic barcode scanning for job tracking and to ensure job integrity (optional)
- 6 Upgrade your BB3002 to a BB3102 with the BBL
